

TESTIMONIALS

- 1) Tia provided our 2 kids with great one-on-one tutoring for Maths and English. She was attentive and always on time, worked well with the kids and focused on key areas. Their marks, particularly in English, improved noticeably and the kids could write far more compelling sentences and stories because of her tutoring.

She assisted them with homework where needed and covered areas in school learning where the kids may simply have missed a class or process which would prevent them falling behind. Tia is highly recommended.

BEN EDWARDS, BRIDGEMAN DOWNS – JANUARY 2020

- 2) We discovered Tia through word of mouth, and we are very thankful. Tia gives our son the confidence to go to the classroom and participate, as she gives him the skills and the knowledge he needs for his level of education, by being a resourceful tutor/teacher who understands Luka.

JODIE HEALION, KIPPA-RING – JANUARY 2020

- 3) My daughter has been working with Tia for about 4 months and I have seen such a difference in her confidence it's the most wonderful thing. My daughter resisted to begin with as she didn't want to do any extra homework than what she had to. However, we came up with a plan to make sure the extra work was not overwhelming, and it was achievable with all her other after school activities. She does a couple of activities most nights but no more than 20mins. The difference it has made in her confidence is amazing. Her teacher has even noticed an improvement in the classroom and has noticed her helping other students who are unsure as she has the confidence to help them. She now begs to read to me each night and we have almost finished her very first chapter book something my daughter always wanted to do and now she can. Thank you so much Tia for helping crack the code.

EMMA WILLIAMS, PETRIE – DECEMBER 2019

- 4) My son has made wonderful progress working with Tia using this program. She is systematic in delivery and executes her teaching in a way that caters to differing learning styles. After a few short months my son is now engaging in reading for enjoyment and doesn't see it as a chore anymore. His confidence has grown, and he is able to apply the skills that he is learning through to Tia to help him Crack the Code.

REBECCA BEAZLEY, WHITESIDE – MAY 2019

- 5) My son Brock now 12, started with Tia last year after he got his mid-year report card and was sitting on a "D" grade for maths as a mum I felt I needed him to get that extra help. Brock has always struggled with school .At the end of his primary school year last year he actually got a 'C" grade on his report card for maths so I was thrilled .Brock just received his progress report for maths and he is sitting on a "B" grade which he has never gotten before I could not be more happy with Tia tutoring Brock she is a lovely lady an great with kids and is always flexible with me sometimes changing times to fit in with me. The most important thing is when Brock said to me a few weeks after starting with Tia is 'Mum Tia is really nice" that was the thing that won me over that my child feels so comfortable and is happy to go. I would recommend Tia for tutoring, she is fantastic.

DONNA GROVES, BRAY PARK – APRIL 2019

- 6) After only 5wks my daughter has gone from refusing to try to read and sound out difficult words to giving it a go. She has so much more enthusiasm for school now as the words and letters are starting to make sense. Both her teacher and paediatrician and impressed with the gains she has made in a short time period. I wish I found Tia 6mths ago. So grateful for Tia giving my girl the willingness to give it a good go and read. Thanks Tia.

NATALIE LIESEGANG, NARANGBA - DECEMBER 2018.

- 7) My children go to a popular school where individual attention is not really possible. I decided to try Tia's tutoring because they were falling behind with the content. I must say we are very satisfied with the progress our children have made in such a short time! Tia teaches them a range of skills-

numeracy, geography, English and writing. The costs are reasonable and worth every penny. Tia is always punctual and our children like her a lot.

SHARLET EDWARDS, BRIDGEMAN DOWNS - NOVEMBER 2018

- 8) My daughter has only just started with Tia, but just after a couple of weeks she has already improved. Tia has made my daughter so comfortable with learning that my daughter has forgotten to stutter. And this from a girl that could not read or make a sentence without restarting several times before getting her words out. I look forward to seeing how far she can go in the rest of her studies.

AMANDA ROWLAND, KALLANGUR - JUNE 2018
